OBJECTIVE

Computer Science graduate with hands-on experience in Excel, SQL, Tableau, and data visualization through personal projects. Seeking a Data Analyst OJT opportunity to apply analytical, data cleaning, and dashboard development skills while contributing to data-driven decision-making.

EDUCATION

Bachelor of Science in Computer Science (2021 – June 2025)
University of Rizal System

- Consistent Dean's Lister AY 2023, 2024
 - With QPA of 1.31
-

PERSONAL PROJECTS

Bike Sales Dashboard

(Technologies: Excel, PivotTables, Charts, Slicers)

- Cleaned and validated 10,000+ records using filters, data validation, conditional formatting.
- Built an interactive dashboard using PivotTables, PivotCharts, slicers, and KPIs.
- Analyzed yearly and monthly sales trends to identify top-performing products and generate actionable business insights.

Procurement KPI Dashboard

(Technologies: Kaggle, Tableau Public, Calculated Fields, Filters)

- Developed a 4-views interactive Tableau dashboard tracking supplier risk, cost savings, and compliance audit.
 - Used calculated fields and filters for dynamic reporting.
 - Designed dashboards to enable faster monitoring of procurement performance.
-

CERTIFICATIONS

Cisco Networking Academy

Introduction to Data Science (Completed – July 2026)

Data Analytics Essentials (Completed – August 2026)

TESDA

Data Analytics NC III (Expected August 2026)

TECHNICAL SKILLS

- Excel (PivotTables, XLOOKUP, IF, INDEX-MATCH, Charts, Data Validation)
 - SQL (SELECT, JOIN, GROUP BY, Aggregate Functions)
 - Tableau (Dashboards, Calculated Fields, Relationships)
 - Data Cleaning
 - Data Visualization
-

SOFT SKILLS

- Analytical Thinking
 - Attention to Detail
 - Communication
 - Problem Solving
 - Teamwork
-

TOOLS

- Visual Studio Code
- MySQL
- Tableau Public
- Microsoft Office
- Kaggle
